

## STORM IN THE WEST

HEAVY FALL OF SNOW REPORTED IN COLORADO, WYOMING AND NEW MEXICO.

## HEAVY DAMAGE TO PROPERTY

RAILROAD TRAFFIC BLOCKADED AND CROPS AND LIVE STOCK SUFFER SEVERELY.

Cheyenne, Wyo., Oct. 22.—The worst storm in years for the season now prevails in Wyoming. It is accompanied by heavy snow and in some sections very high winds. The Union Pacific railway has snowplows out on the entire line between here and Ogden. West of Green River, Wyo., the line is blockaded and all communication is cut off. All wires are down. A dispatch from Green River says the highest wind known in twenty-five years is blowing, with the temperature 10 degrees above zero and a heavy snow falling. One flagman was found dead near Granger and another man was found on the track unconscious and badly frozen. One building at Green River was demolished by the wind and snow. The news from Northern and Central Wyoming reports practically the same conditions. Stockmen are apprehensive of great losses. The storm is slightly abating here.

## HEAVY SNOW IN COLORADO.

Two Feet Deep on the Level and Five in the Mountains.

Denver, Oct. 22.—A general storm prevails along the Eastern slope of the Rocky mountains from Wyoming to New Mexico. Snow has been falling in Colorado almost incessantly for the past twenty-four hours and still continues. Suburban electric lines have operated with difficulty and railroads have experienced delay in running trains. As yet no serious results are reported in this city, but from Albuquerque, N. M., comes a report of considerable property damage from high winds. The sudden dropping of the temperature accompanied by blizzard conditions in Northern New Mexico caused losses to the sheep raising industry, according to reports.

In Colorado the storm extends to the west slope in the valley around Buena Vista, the snow lies two feet deep on the level and in the mountains throughout the state the snow varies from two to five feet in depth. Twenty-two inches of snow has fallen at Florence. Apple orchards in that section will suffer considerably.

The roof of one of the buildings at the cement works at Portland gave way under the weight of snow. In Northern Colorado the snow is twenty inches deep and should a freeze follow heavy loss will result to the potato crop.

Wyoming reports a general storm that has played havoc with wire communication and is interrupting railroad traffic. Several minor wrecks have occurred. Livestock is threatened from exposure. The storm, though abated somewhat, still continues.

## SEVERE STORM IN UTAH.

One Man Killed and Much Property Destroyed at Ogden.

Ogden, Utah, Oct. 22.—One man was killed and \$100,000 in property was destroyed by a heavy wind storm that swept over this section. William Gibbs was struck by a flying plank and killed.

The Catholic church was badly damaged and other large buildings suffered.

Trains between Ogden and Salt Lake have been stalled since early Saturday night.

Salt Lake, Oct. 22.—For the past twenty-four hours this city and vicinity has been swept by a windstorm of unparalleled severity. In addition to three serious accidents to persons, property over a wide area has been devastated. A fire fanned by the wind has obliterated the new plant of the Utah Packing company, causing a loss of about \$250,000.

## Snow in Minnesota.

Duluth, Oct. 22.—From five to six inches of snow has fallen in the past twenty-four hours over Northern Minnesota and the Vermillion range west to Fosston, and possibly farther west. The southern line of the storm was Grand Rapids, in Itasca county, and half way between Duluth and the iron range.

The song that we hear with our ears is only the song that is sung in our hearts.—Ouida.

## TRAIN HITS A TROLLEY CAR.

Two Persons Killed and Several Others Injured.

Toledo, O., Oct. 22.—Two persons were killed and two others were fatally injured and several more were slightly hurt when an incoming Cincinnati, Hamilton and Dayton passenger train collided with an outbound car on the Toledo and Indiana traction line at the crossing on Dorr street, three miles west of this city. The dead are T. Howard, Chicago; Louis E. Krause, Toledo.

The locomotive struck the rear end of the car, smashing it badly. The engine was thrown from the track and one of the crew buried beneath it. Two of the passengers were instantly killed and about a dozen injured.

The engineer and fireman stuck to their posts until the crash came. Their cab was split open and both crawled out, escaping with a few bruises.

The Cincinnati, Hamilton and Dayton train had the right of way. Conductor Gilbert of the interurban misjudged the distance and thought he had plenty of time to cross the track ahead of the train. Motorman Whalen disappeared after the collision.

## STREET CARS IN COLLISION.

One Man Killed and Seven Other Persons Injured.

Pittsburg, Oct. 22.—One man was killed, another hurt so seriously he will die, and six other persons sustained cuts and bruises as a result of a street car collision in Knoxville, a suburb of this city. The dead man is Michael Sullivan, a conductor, and the fatally injured is Lewis H. Davis.

The motorman lost control of the car and it slid backward down a steep grade, crashing into one following.

Almost simultaneously a repair car upon which the brakes refused to work, crashed into a West Park car, seriously injuring four persons. Michael McMahon, the motorman of the passenger car, had his scalp torn off and received other injuries.

## ENGINEER AND FIREMAN KILLED.

Excursion Train Collides With a Freight Train.

Danville, O., Oct. 22.—An excursion train on the Cleveland, Akron and Columbus railway, returning from Cleveland to Columbus, collided head on with a freight train two miles east of here.

Engineer Slaigle of Brinkhaven and Fireman Mitten of Millersburg, who were on the passenger engine, were killed.

None of the passengers was hurt, although all were badly shaken up.

## THREE PERSONS KILLED.

Two Others Injured in a Train Wreck in Washington.

Everett, Wash., Oct. 22.—The Skykomish passenger train westbound and a Great Northern freight train, eastbound, collided head on near Monroe. Freight Engineer Judson, Fireman A. W. Rechelle and Pat Sheridan were killed and Passenger Engineer George Lawrence and Conductor Wetzel were injured. Several freight cars were demolished. The freight is said to have been running off schedule.

## TRAIN JUMPS THE TRACK.

Three Men Killed and Three Others Injured.

Mount Vernon, Ky., Oct. 22.—Bert Smith, engineer; Joe Derrickson, lumberman, and Conductor Lith were instantly killed by a train jumping the track on the Mountain Central railway, near Campton, Ky. Three other men were fatally hurt. Smith lost control of his engine going down a steep grade.

## SENSATION IN MEXICO.

Caused by Charges Against the Governor of Sonora.

Mexico City, Oct. 22.—A profound sensation has been caused by the announcement that voluminous documents have been presented to congress formally accusing Rafael Izabel, governor of the state of Sonora, of being responsible for the violation of territorial rights. The accusation refers to the entrance upon Mexican soil of Arizona rangers, alleged to have been in the governor's convoy at the time of the Cananea riots.

## TO LIFT THE AMERICA'S CUP.

Sir Thomas Lipton May Make One More Attempt.

Chicago, Oct. 22.—Sir Thomas Lipton and party have left for New York, whence he will sail for home Nov. 10. He said he thought he would make one more attempt to lift the cup. "And don't you believe," he added, "that it will be a good thing for it to go back to the old home just once more? I do."

## Goluchowski's Resignation Accepted.

Vienna, Oct. 22.—Emperor Francis Joseph Sunday received Count Goluchowski, the Austro-Hungarian minister of foreign affairs, who formally presented his resignation, which was accepted by his majesty. It is not yet known who will succeed Count Goluchowski.

# Our Second Birthday

¶ Just two years ago it became our pleasure to come into your midst; to place ourselves where our existence depended upon your attention to us and for the attention given us we are duly grateful.

¶ Some were pessimistic and avowed that our constitution would not survive the rugged fight necessary to exist in the Brainerd business atmosphere but you stood nobly by us, giving us of your best, and encouraging us with appreciative words.

¶ We are proud of our achievements and as a youngster, are, perhaps, a bit boastful of them but you will pardon us if we recount some of our steps of growth. Fact is, we believe that you have sufficient interest in us to want to hear a little of it.

¶ We inherited the "square deal" policy and we have tried to fully live up to all that those words mean. "Everything as represented or your money back."

¶ We believe in progression and we have added to ourselves ways befitting a promising youngster so that our business conduct will measure up to that you may expect of our city cousins.

¶ Now that we can walk alone we expect to do bigger things in the future. We expect to keep your good will and make new friends which only age permits one to have.

¶ We are still at the age where we will appreciate your advice and will gladly receive any that you may have for the benefit of our conduct. We want our actions to please you.

¶ Now that "we are going on three" we shall do our utmost to make you still prouder of our achievement when our third year shall come to a close and we thank you in advance for all that you shall do for us.

## TOWNS SWEEPED AWAY

TERRIBLE DISASTER WROUGHT BY THE HURRICANE IN SAN SALVADOR.

## LOSS OF LIFE VERY HEAVY

FAST QUANTITY OF SULPHUR WATER KILLS INHABITANTS OF PANCHINALCO.

San Salvador, Republic of Salvador, Oct. 22.—Telegraphic communication with the interior points has been restored and news of the disaster wrought by the terrific storm that swept over the country is being received. Over 100 persons have been drowned in Coatepeque. A vast quantity of sulphur water was thrown out of the Chulo volcano and inundated the town of Panchinalco, killing most of the inhabitants. From other points also reports of terrible devastation are coming in. Pimienta and other towns are reported to have been swept away by the floods. The schooner Azelene, with a number of passengers on board, has been lost between Corinto, Nicaragua, and Amapala, Honduras. Everybody on board was drowned. The floods have destroyed a number of corpses from cemeteries and are carrying them down the streams. It is reported that the railroads in Honduras have suffered serious damages.

A subscription list to aid the victims has been opened. It is headed by President Escalon with a generous donation.

## WOMAN BADLY BURNED.

Accuses Her Husband of Trying to Burn Her Alive.

Pittsburg, Oct. 22.—Screaming with pain and terror, with her clothing ablaze, Mrs. John Doran rushed from her house into the street in Wilkesburg, near here, and after a policeman had extinguished the flames she was taken to a hospital in a critical condition, where she told a story of her husband's cruelty, charging him with deliberately attempting to burn her alive. Doran is under arrest.

According to Mrs. Doran, her husband had been drinking and when he came home he began to abuse her. She says he threw a lighted lamp at her and then knocked her down. Then,

she declared, he seized a towel which had ignited from the broken lamp and set her clothing on fire. Her statements are substantiated by a thirteen-year-old daughter, who witnessed the father's cruelty. Mrs. Doran's hair was burned to the scalp and her clothing above the waist was burned off, scorching the skin in a frightful manner.

## MOB AFTER AN IOWA MAN.

Officers Manage to Elude the Would-Be Lynchers.

Sioux City, Ia., Oct. 22.—At Mapleton, sixty miles south of here, a mob was formed for the purpose of lynching Claude Fisher, a farmhand, aged twenty-one, who is said to have confessed to criminal assault on Miss Minnie Baker, a Mapleton school teacher.

Officers escaped with the prisoner to Ida Grove, where he was lodged in jail. Miss Baker was found unconscious at night in a thicket off the roadway, where she had been dragged by her assailant. She is still in a precarious condition. Fisher was identified by his hat, which was found near the scene of the assault.

## RUSSIAN STEAMER LOST.

Hits a Floating Mine and Sinks With Many Passengers.

London, Oct. 22.—A dispatch received here from Vladivostok by Lloyds agency says the Russian wooden coasting steamer Warjagin struck a floating mine and foundered on Oct. 20. Some of her passengers and crew were saved but 180 persons were drowned.

Another message received by a news agency says 200 passengers perished on board the Warjagin, only one being saved.

## Wealthy Man Found Dead.

Norfolk, Va., Oct. 22.—After having been missing for eleven days, E. W. James, a member of clubs of Norfolk, Richmond and Baltimore, said to be worth \$500,000, was found dead in a room of the Old James mansion here. Death occurred over a week ago and was due to asphyxiation. The police are investigating.

## Messenger Boy Killed.

St. Paul, Oct. 22.—Roy Asp, sixteen years old, an A. D. T. messenger boy, was accidentally shot by Ernest Gustafson, also a messenger boy, at Asp's home, 923 Margaret street. Young Asp was taken to the city hospital, where he died a few hours later.

## Killed by a Runaway Ore Car.

Anaconda, Mont., Oct. 22.—Two men were killed five miles east of this city by a runaway car of ore. The dead are: Rosario Lalvucci and Basil Hoyt. Lalvucci was torn to pieces. A faulty coupling was the cause of the accident.

## BURTON BOUND FOR PRISON.

Former United States Senator Will Serve Six Months.

Abilene, Kan., Oct. 22.—Joseph R. Burton, former United States senator from Kansas, whose sentence to six months in the county jail at Ironton, Mo., recently was upheld by the United States supreme court, has left his home here for St. Louis, where he will surrender to the district court, prepared to go to prison. He was accompanied by Mrs. Burton and their adopted daughter, who will take up their residence in Ironton during Mr. Burton's incarceration.

Numerous townsmen called upon Mr. Burton at his home here to bid

him adieu. He seemed thoroughly cheerful and laughingly said:

"I've paid my laundry bill and looked after some other small matters, but I don't suppose that would interest the public."

When Mr. Burton and his family departed for St. Louis, a number of friends were at the station to see them go.

## Famous Sloop at San Francisco.

San Francisco, Oct. 20.—The Norwegian sloop Gjoa, in which Captain Roald Amundsen traversed the Northwest passage, has arrived here from Cape Nome and is now at anchor off Sausalito. The crew of the Gjoa, with Captain Amundsen, will go to New York as soon as possible. They will leave for Norway Nov. 8.

The democratic candidate for congress in this district is evidently ashamed of his party, as his lithograph appears in the windows with his name attached and the legend "candidate for congress." He evidently is making a play for republican votes as posing simply as a "candidate" without a party. It won't work however.

If the people of Minnesota do their duty A. L. Cole will be elected governor of the state by at least 25,000 majority. It is of vital importance that a man be elected this fall who will see that the rights of the people are protected and who will use his efforts towards advancing the interests of the state. Mr. Cole's legislative record shows him to be a man who can be trusted with the state's business, his vote on all questions coming before that body was always recorded on the right side. The people of Northern Minnesota should stand by him to a man, as he can and will do more for the northern part of the state than a man who is not interested in state development. We need a man like A. L. Cole in the governor's chair.

## PUBLIC BUILDING SITE

Notice has been received from the department that final consideration will be given and selection made of a site for the United States government building to be erected in Brainerd, Minnesota, and purchase thereof closed on the 19th day of November, 1906. Persons desiring to submit further statements in writing relative to any of the sites offered are informed that their communications will be given consideration if on file before the date named.

## HELPED MAKE THE DISTRICT.

Long Prairie Argus. If there is anything in knowing the wants of the plain people that fits a man to represent them in congress, Charles A. Lindbergh certainly has that knowledge. If experience on the farm, in the common schools, and in the shops and business places of this state can give such knowledge, Mr. Lindbergh has had ample opportunity to acquaint himself with the needs of the people, as he has grown up from infancy to manhood in the Sixth congressional district of Minnesota. He is the only product of this district who has ever been nominated for the high office of congressman to represent its people. His parents brought him to Melrose, Stearns county some forty-seven years ago. He assisted on the farm and endured the trials and privations of a pioneer. He helped to make this district what it is. He and other such men built up this country so that other people come in happier days and reap the harvest of plenty sown by them.

## WORK WEAKENS THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for People Who Work in Brainerd

Most Brainerd people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious household work; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs—Brainerd cures prove it.

Mrs. Peter Christensen, of 1101 Rosewood St., S. E., Brainerd, Minn., says: "It is over two years ago when Mr. Christensen was doing heavy contracting work that kidney complaint made its appearance in the form of backache and pains over the kidneys. Sometimes it caused lameness so bad that it required great effort to keep at work, and at best there was a continual annoyance. Doan's Kidney Pills, sold by H. P. Dunn & Co., druggists, were procured on the advice of a friend, and the results of their use was so satisfactory that every symptom of his trouble disappeared. The improvement in his condition has remained unchanged during the time which has elapsed since then."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

## BRAINERD TWENTY YEARS AGO

Dispatch Files of Twenty Years Ago this Week.

"Editor Halsted returned last Saturday morning from Wheeling, with a bride. It is rather unkind, to say the least, that a newspaper man should take such a move as this without first warning his friends, but we will excuse him this time providing he makes good promises for the future. Mr. and Mrs. Halsted are housekeeping on Eighth street north. Congratulations are in order."

H. McGinn sold his interest in the firm of Bradbury & McGinn to Chas. Peabody, the firm name becoming Bradbury & Peabody.

Monte Cristo was billed at the opera house.

Mrs. Wm. Gibson, of East Brainerd, died at the home of Mr. Sturgeon of intermittent fever.

A republican club had been organized with A. J. Halsted as president and F. D. Stanley as secretary.

James McCool was shot while fleeing from an officer, after a row in John Hughes' restaurant.

## Result of Neglect.

## WANT MORE MONEY

Forestry Commission Will Need Bigger Appropriation to Set out Trees on

## Reserve Next Spring

Gen. C. C. Andrews was in the city today on his way down from a trip to the northern part of the state. Mr. Andrews states the trees which they set out last spring on the Pillsbury forest reserve are doing finely and that at least nine-tenths are alive. There are 2,000,000 more seedlings in the nursery at the reserve which they wish to set out next spring, but cannot do so unless the legislature provides funds for the work. Mr. Andrews further states that the growth of young pine that is springing up on the cut over lands in the north part of the state is remarkable and that if it can be protected from fire it will be very valuable in a few years, but that the forestry commission is handicapped by lack of funds to vigorously enforce the law. The cities of the state spend \$2,000,000 a year for fire protection, but the state spends only \$10,000 for the protection of all its forests.

Foley's Kidney Cure will cure any case of kidney trouble that is not beyond medical aid. H. P. Dunn & Co. mwf

## MINING INDUSTRY IN ALASKA.

No Romance of Keener Interest Than Its Development.

Washington, Oct. 22.—No romance is of keener interest than the story of the mining industry in Alaska during the past decade. It is attested roughly by the increase in the value of its annual output from \$2,400,000 in 1895 to over \$15,000,000 in 1905. The gold production of 1905, according to reports of the United States geological survey, increased probably 60 per cent over 1904.

An important fact in the advance of Alaska's mineral industry during the past decade, says the report, is the great reduction in mining companies that has taken place during this period. The pioneer miners of the Yukon could not afford to handle gravel averaging less than \$10 or \$15 to the cubic yard. In the same district good wages can now be made, even by crude methods, in extracting gold from pay streaks averaging less than \$5 to the cubic yard.

Tribesmen Seize a Town.

Tangier, Morocco, Oct. 22.—Banjaros tribesmen have seized the town of Arzila, twenty-five miles south of here, and assumed the governorship.

## Loss of Power To Digest Food.

The most important function of the organs of the body is the digestion and assimilation of food, and in this process is consumed an enormous quantity of nervous energy.

As the result the moment disorders of the nerves arise, digestion is impaired, and the very source of health, strength and vitality interfered with.

To prevent physical bankruptcy the nervous system must be built up by outside aid such as the use of Dr. A. W. Chase's Nerve Pills, a preparation composed of the very elements of Nature which go to form new blood and nerve cells.

Besides this restorative influence on the whole system, Dr. A. W. Chase's Nerve Pills have an immediate and direct effect on the digestive system. They stimulate the nerves of taste and induce a good flow of saliva to aid digestion. They excite the glands of the stomach and produce a plentiful supply of gastric digestive fluids. Dr. A. W. Chase's Nerve Pills, 50 cts a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

# PORTER ADAMS KILLED SATURDAY

## Popular Fireman has Head Crushed while Riding a Wood Car at Starbuck

# WAS STUCK BY ANOTHER CAR

## Had Quit Firing and Gone to Braking—Was out on His Third Trip

Porter Adams, one of the best known and most popular men running on the Morris branch was killed Saturday afternoon. He had been firing for five years and had run a switch engine in St. Paul for a long time last winter, but went west last spring and ran an engine out of Glendive, Mont., for some time. He returned a week or so ago and decided to enter the service as a brakeman. He was on the third trip when death came. The train was switching at Starbuck. A car had been set out on the siding and either had not been set in far enough, or had blown back toward the switch. Adams was riding the side of a car of wood and was struck by the other car and instantly killed, his skull being crushed. The remains were brought to Little Falls on No. 91 today and taken to Stillwater for burial. Mr. Adams was a young man who had many friends in Brainerd, as well as elsewhere on the road, who will mourn his untimely death.

Constipated? Be careful! Might turn into appendicitis. Get Adler's treatment. No danger then. Johnson's pharmacy.

# Gov. Johnson Buys a Raudenbush Piano.

In the face of the fiercest kind of competition, which included many of the best Eastern makes of pianos, the Governor and Mrs. Johnson purchased the Raudenbush piano—strictly on its merits—quite a feather in the cap of the local house of S. W. Raudenbush & Co., who manufacture this fine instrument right here in St. Paul.—St. Paul Pioneer Press, Feb. 4, 1906.

Concerning the instrument the governor writes:

April 17, 1906.  
S. W. Raudenbush & Co.,  
St. Paul, Minn.

Gentlemen:—It affords me much pleasure to state that Mrs. Johnson and myself are more than delighted with the Raudenbush piano recently purchased from you. It has exceeded our expectations and is not only admired by ourselves but by our musical friends as well and gives entire satisfaction to us in every possible particular.

Very truly yours,  
JOHN A. JOHNSON.  
Raudenbush piano sale now on at Singer store, Pierce block.

# Advice to Housewives.

# JUDICIAL DITCH

One Is Established In Aitkin and Crow Wing Counties. Steam Dredge was Used.

Aitkin Republican: Engineer Whiteley of Brainerd was in town last night on his way home from accompanying the viewers of judicial ditch No. 1, in Crow Wing and Aitkin counties, who finished their work yesterday afternoon. The ditch begins at the corner of sections 14, 15, 22 and 23, town 47-28, and runs east two miles on the section lines between sections 14, 23 and 13, 24, to the county line, thence in Aitkin county between sections 18 and 19, town 47-27, for about a mile, emptying into Cedar Brook. Three branches connect with the main ditch and the total length of the ditch and its branches is over six miles. The land through which the ditches will pass is all level marsh and is now virtually under water and it will be made tillable by the ditches. Harry Patterson and James Sorenson of Crow Wing and D. M. Falconer of Aitkin were the viewers and assessed the benefits and damages.

Crow Wing ditch, No. 11, going west to the Mississippi river, begins only a few feet from the starting point of the judicial ditch, and a man named Doyle from Stearns county has the contract for this ditch. Mr. Doyle has constructed a dredge boat 16 feet wide and 68 feet long to prosecute the work. The boat is equipped with two 15-horse power engines, a 40-horse power boiler, wire cable, a 40-foot power arm and the bucket attached to the arm will lift a yard of dirt at a time. The boat is provided with electric lighting apparatus, and it is the intention to pursue the work day and night. The dredge requires three feet of water to float and operate it, and work will begin at the starting point of the ditch instead of the mouth, as is usual in such cases when work is done by hand. The men sleep in the rear of the dredge, and the cook is the high mogul on another boat. Such a large boat on a marsh is something of a curiosity and Mr. Whiteley says it is well worth going to see.

Henry E. Jones, of Tampa, Fla., writes: "I can thank God for my present health due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good until I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back or shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney cure." H. P. # A HANDSOME STORE

E. S. Houghton Now Located in His Handsome Store Room in First National Bank Block.

E. S. Houghton moved his jewelry stock Saturday night from his former location to the south store room in the First National bank block, which has been entirely overhauled and thoroughly refitted for him. He has now one of the finest and most up to date jewelry stores in the north part of the state, outside of Duluth. The ceilings and walls were frescoed and ceilings decorated and wood work refinished.

# "Monte Cristo" Tonight.

Everything possible has been done to make the engagement of James O'Neill in "Monte Cristo" at the Brainerd opera house tonight the most gratifying ever given the Dumas play. Mr. O'Neill is so closely identified with the character of Edmond Dantes that it is impossible to tell which has the greater drawing power—the actor or the play. That his conception and execution of the role is absolute perfection is proven by the great reputation he has made in every city of importance in the United States. Follow the fortunes of Edmond Dantes and it is like skimming the pages of a

James O'Neill in "Monte Cristo"

fairy tale, with all the emotions, feelings, ambitions and sordid desires of a man portrayed with a clear and striking hand and the lessons of life are taught in unmistakable terms. This distinguished romantic actor has positively announced that after years of uninterrupted success with "Monte Cristo," he will never again play it after this season. The company is an exceptionally strong one that he has engaged for his support this year and the production is new and elaborate, and in every way fitting the last performances of such a famous old play.

Intending patrons are again reminded that the curtain will rise promptly at eight o'clock for this performance.

# FAULTY DIGESTION

Quickly Shatters the Nervous System and Should be Given Attention at Once.

If the sufferer with weak nerves only realized that a faulty digestion was the chief cause of nerve exhaustion, a cure would be much easier, for he would then strengthen the digestive organs with Mi-o-na stomach tablets.

A few days' use of these tablets will tone and strengthen the digestive system so that it will absorb all the elements of nerve force from the daily food, and the nerves will be strengthened, sleeplessness will be overcome, weakness will vanish, and the various functions of the body will become natural and regular.

If you have specks before the eyes, are sleepless, have nervous twitchings, headaches and backaches, if there is nausea or distress after eating, if the appetite is poor and there is general debility and weakness, begin the use of Mi-o-na at once, and you will soon notice a marked improvement in health. It will give strength and vigor to the whole digestive system, restore the vital force and nerve energy, and impart ambition, strength and good spirits to the discouraged, run-down and weak.

You run no risk whatever in buying Mi-o-na for H. P. Dunn & Co., give an absolute guarantee with every 50 cent box that the money will be refunded unless Mi-o-na does all that is claimed for it.

## TOTALLY DESTROYED

EVERY HOUSE ON LONG KEY DEMOLISHED BY THE RECENT TROPICAL TORNADO.

SAVED BY PASSING VESSELS

MORE THAN THREE SCORE OCCUPANTS OF A HOUSEBOAT RESCUED FROM WRECKAGE.

Miami, Fla., Oct. 22.—Reports from Long Key say every house was demolished by Thursday's storm and it was there that so many of the men employed on the Florida Coast railway extension lost their lives.

All the injured are in the hospital here, receiving the best of medical attention. Harry E. Flagler telegraphed from New York to spare no expense in caring for the men and their families. Only a few of the men were dangerously injured, most of them suffering merely from sprains, bruises, abrasions and exposure to the weather.

Throughout Dade county the damage done to orange and grape fruit trees was large, the fruit being beaten off the trees and ruined.

SAVED BY A BRITISH VESSEL.

Twenty-four Survivors of a Houseboat Rescued.

Savannah, Ga., Oct. 22.—The British steamer Alton, Captain Bell, has arrived in this port with twenty-four survivors of Houseboat Number 4, which was engaged in building the extension of the Florida East Coast railway to Key West. The Alton had passed just in time and had seen the signals of distress.

The rescued men were bruised and torn in their efforts to keep their hold upon the wreckage to which they had clung after the houseboat went to pieces. There were 137 men on the houseboat at the time. It is believed that at least twenty lost their lives.

The houseboat broke up into rafts and to these the survivors clung. Thursday afternoon the Alton, bound from Galveston for Copenhagen, picked up the twenty-four men who were brought to Savannah.

The Russian steamer Jennie sighted the wreckage and succeeded in rescuing the forty-nine men, who were taken to Key West. Three other steamers with searchlights were picking up dead and alive men when the Jennie left the scene.

There was another houseboat with 150 men on board at Long Key also swept to sea.

**CLEMENCEAU ACCEPTS TASK.**

Called Upon to Form a New Ministry for France.

Paris, Oct. 22.—As was expected, M. Clemenceau, minister of the interior, was summoned to the Elysee palace and entrusted with the task of forming a new ministry. M. Clemenceau expressed his acceptance and then drove to the house of M. Sarrien, the former premier, whom he consulted with regard to the political situation, saying also that he regretted M. Sarrien's retirement. M. Clemenceau then visited M. Dubost, president of the senate, with whom he conferred for a short time. He then saw M. Bourgeois, minister of foreign affairs, whom he urged most pressing to retain his portfolio. M. Bourgeois was inflexible in his refusal, pleading ill health.

M. Clemenceau also held conferences with his political friends, including General Picquart, the defender of Dreyfus, who was restored to the army and promoted on July 13. M. Clemenceau declares he has not yet offered any portfolio, and that he saw General Picquart only for the purpose of obtaining information on certain phases of the army estimates. It will take him four days to choose his ministers and another four or five days for the new ministry to agree on a programme. No appointments are expected until after M. Clemenceau confers with M. Brisson, president of the chamber of deputies.

**RESULT OF FOUL PLAY.**

**Believed Death of Syrian Leper Was Due to Poisoning.**

Clarksburg, W. Va., Oct. 22.—The body of George Raschid, the Syrian leper, has been cremated at Pickens, the shanty in which he had been staying being set on fire.

It is now declared his death was the result of foul play. Many people at Pickens say the leper was given poison in his food.

If he were murdered, the persons administering the poison well knew there would not be a postmortem examination held on the body.

**Minnesota Man Commits Suicide.**

Duluth, Oct. 22.—Joseph Jindra, aged twenty-six, whose parents reside at New Prague, Minn., committed suicide here after repeated attempts. He was stopping at a Bowery lodging-house, and wrote a letter asking forgiveness of his parents, and then began firing a revolver at his head. He fired five shots at his head without hitting himself, and then placed the muzzle of a rifle against his breast and fired it. He died immediately.

## VEXATIOUS CONTROVERSIES.

Will Be Before the Coming British Parliament.

London, Oct. 22.—Parliament will reassemble Tuesday with two vexatious controversies before it and the meeting promises to attract renewed attention to public questions. Sir Henry Campbell-Bannerman, the premier, has returned to town after a long rest following the death of his wife, who died at Marienbad last summer. He intends to resume the active direction of parliamentary affairs. A meeting of the cabinet will be held, after which the premier will have an audience with King Edward, and the work of the session will be definitely determined.

Joseph Chamberlain's recent illness promises to remove him temporarily from the galaxy of bold and brilliant parliamentary orators, but he sends word that his indisposition will be of but brief duration and that he expects to return before long and continue his tariff propaganda.

There has been some talk that A. J. Balfour will give place to another leader of the opposition, but in spite of this the indications are that Mr. Balfour will continue in his old place, with Lord Lansdowne directing the opposition forces in the house of lords.

It is not likely that the government will initiate any legislation beyond that foreshadowed in the king's speech, together with that which was left over from the spring sitting.

The session which begins Tuesday will be marked by two conflicts, one between the house of lords and the house of commons over the education bill and the other between the government and the labor party over the workmen's compensation bill. During the recess now coming to a close the socialistic wing of the labor party has opposed the government's candidates, and the present measure is considered something of a test of the government's ability to hold the support of the labor members of the house of commons.

The controversy between the house of lords and the house of commons over the education bill may lead to serious consequences and possibly cause an appeal to the country, as the two houses are apparently irreconcilable over the measure.

## Will Fight Alcohol Trust.

Baltimore, Oct. 22.—Large buyers of alcohol, distillers and others interested are preparing to fight by appeal to the department of justice at Washington and by congressional action, if necessary, the recently formed Distillers' Securities corporation and the high price which, it is charged, that corporation intends to maintain for denatured alcohol.

## Strikers Gain Their Point.

Marshalltown, Ia., Oct. 22.—A strike which has lasted three weeks at the Iowa Central car shops here and resulting in a complete shutdown of other departments in the general shops was settled during the day. Foreman John Green, whom the strikers demanded that the company discharge, is transferred to another department.

The only high grade Baking Powder made at a moderate price.

# WOMAN

"Woman" is the name of a new magazine for women. The first number is just issued. Your newsdealer has it. You can get it from him, and it is worth your while getting it. There is nothing startling about this magazine. There should be nothing startling about a decent magazine for women and the home. But this particular magazine is unique among all the so-called publications for women. You might not like it a little bit, and then, again, it might hit your fancy good and hard.

If you like fiction—good, wide-awake, snappy stories—both serials and short stories—you will like "Woman." In fact, fiction is the big feature of the magazine.

All the other magazines for women are cast on the same model—a little bit of fiction, a few articles, more or less chit chat, some wise advice, a fashion department and a smattering of general miscellany. "WOMAN" doesn't look any more like this conventional model than a yellow dog looks like a race horse. It is built on new lines for a strictly woman's publication. To know what it is like you will have to get a copy of it. It would cost too much to tell you all about it in this advertisement.

The price of "WOMAN" is TEN CENTS A COPY, and the magazine is a very big one—192 pages.

By the way, two rattling good serial stories begin in this first number and it contains a big lot of other good things. You would do well to ask your dealer for it before his supply is exhausted.
